PROJECTS

Movie-App (Web-App)

Description

. Deployed Link Here
. The ability to search for content globally.
. The web-app assists users in making informed decisions on which movies or TV shows to watch, eliminating time spent on extensive searches with its user-friendly interface.

Features Highlight
. Implemented **Infinite Scrolling** for smooth browsing experience.
. Integrated **AJAX** for real-time data retrieval.
. Incorporated **React Router DOM** for seamless navigation of pages.
. Enabled **Sorting** of movies by specific actor, improved user experience.

Obey's Agency Clone (UI)

Description
. Deployed Link Here
. Created a faithful clone of the award winning website Obey's Agency, renowned for its innovative animations, effect, and distinctive web architecture using **HTML , CSS , JS.**

Features Highlight
. Integrated dynamic and engaging animations with **GSAP** library to replicate the website's signature visual effects.
Utilized **SheryJS** library for certain innovative effects and enhancing interactivity, staying true to the original website's design ethos.
